SUMMARY

Skilled software engineer specializing in Java backend development with extensive experience in Spring Boot and JDBC. Proven ability to design and deliver scalable solutions that enhance application performance and reliability. Adept at collaborating in agile teams to meet project deadlines and exceed stakeholder expectations. Committed to continuous learning and applying best practices in backend architecture.

EXPERIENCE

Software Engineer
Fiverr

📅 03/2025 - Present   📍 Lahore, Pakistan

Self-Employed

- Developed scalable applications using Java and Spring Boot.
- Wrote and tested REST APIs while following clean coding standards.
- Participated in code reviews and Agile sprint with the engineering team.
- RESTful APIs Integeration.
- Working with JDBC.
- Increased API reliability by designing and testing Islamic Quiz Application RESTful endpoints adhering to clean code standards.
- Integrated RESTful APIs with JDBC in Bricker projects, enhancing backend data connectivity.

Software Engineer Intern
YAP Pakistan

📅 03/2025 - 06/2025   📍 Johar Town Lahore, Pakistan

Full-Time

- Working with different projects and different Experience with Team
- Addressed bugs and performance issues during development lifecycle.
- Developed and tested + features improving app stability and user experience.
- Optimized codebase increasing application performance by 100%, improving UX.
- Collaborated with cross-functional teams to deliver 100% faster project completion.
- Working with Fintech Application YAP- PK

Associate Software Engineer (Intern)
Digitify

📅 08/2024 - 03/2025   📍 Johar Town Lahore, Pakistan

Full-Time

- Contributed to core backend development of Java-based microservices.
- Implemented and maintained RESTful APIs for financial services platforms.
- Collaborated on the design of scalable solutions with senior engineers
- Wrote and tested REST APIs while following clean coding standards
- Addressed bugs and performance issues during development lifecycle.

EDUCATION

Bachelor's Computer Science
Abbottabad University of Science and Technology

📅 02/2020 - 03/2024

FSc Pre-Eng
Govt Post Graduate College No 1 Abbottabad

📅 08/2017 - 08/2019

Matric in Science
Govt High School Sarhan Abbottabad

📅 02/2015 - 04/2017

PROJECTS

Virtual Clothing (FYP)

Online Virtual Clothing System

- Created an AR-based app for virtual clothing trials with intuitive UX.

Bricker

Working with Java Spring boot Application and Next js.

- API integration with Rebrickable.com
- What was a successful outcome of your work? (e.g. Raised $3,000 for the charity)

Food order Management System

Develop java backend System

- Perform CRUD operation with RESTful APIs
- working with JDBC and perform APIs on postman

Airline Reservation System

Develop a Java Backend Development

- Book online Tickets.
- Perform CRUD operation in Backend System.

Islamic Quiz Application

Java Backend Spring boot

- Built an engaging quiz platform with scoring and question bank features.
- Use CRUD operation and perform APIs on Postman.

Attendance Management System

Working with Java Spring boot

- Developed a robust backend for an Attendance Management System using Java and Spring Boot.
- The system enables automated tracking of student or employee attendance with role-based access controls for administrators, teachers, and users.
- Attendance Management System in Java Backend System.

SKILLS

Java	Spring Boot	Microservices
JDBC	RESTful APIs	MySQL/ SQL
Git/Github	HTML/CSS	JavaScript
